RE: Field Exam for 63-12595

Right 63-12595 has been relinquished and replaced by permit 63-12311. The two permits are identical with the exception of the priority date and the storage under 63-12311 is described as aesthetic instead of recreation.

I conducted a field exam on permit 63-12595 prior to the relinquishment. The field exam can be used for permit 63-12311 when proof is filed.
