CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **August 01, 2014**.
2. Subject to all prior water rights.
3. The Director retains jurisdiction over this right to require mitigation. Surface and ground water in the Big Wood River Ground water Management Area will be conjunctively managed in the future. It is likely that use of this right will require mitigation for its injury on senior surface rights. In the event that mitigation is required and not provided when this right is conjunctively managed, all or portions of this right will be curtailed. The right holder assumes all risk in development and use of this right.
4. The daily diversion volume for non-domestic uses under this municipal right shall not exceed 2,500 gallons per use and the daily diversion volume for domestic uses under this right shall not exceed 13,000 gallons per dwelling in accordance with Section 42-111, Idaho Code.
5. The irrigation occurring under this municipal use shall not exceed 1/2 acre within each platted lot upon which a dwelling has been constructed. This right does not provide for irrigation of common areas or for irrigation of lots upon which dwellings have not been constructed.
6. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
7. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

Permit to Appropriate Water

NO. 37-22436

8. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
9. Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
10. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
11. Place of use is within the area served by the public water supply system of Croy Canyon Ranch Foundation, Inc. The place of use is generally located within Section 17, Township 2N, Range 18E.
12. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
13. Prior to or in connection with the proof of beneficial use statement to be submitted for municipal water use under this right, the right holder shall provide the department with documentation showing that the water supply system is being regulated by the Idaho Department of Environmental Quality as a public water supply and that it has been issued a public water supply number.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 21st day of July, 2009.
