Re: Water Right Transfer Application 75116 (Water Right. Nos. 63-5332 and 63-5334)

Dear Lori:

As you know, I am processing the application referenced above to change the PPU from 60 acres to 215 acres. Our last communication was an email response I received from you on April 3, 2009, regarding the Attachment E to the Water System Facilities Conveyance Agreement that was submitted with the application of transfer. Attachment E is the list of water rights affected by the Agreement.

However, upon further review, additional ownership documentation is required before IDWR can change the ownership of the rights from the Osprey Land Co. to the Osprey Property Owners Association. Specifically, IDWR must have something that substantiates that the Osprey Land Co. retained ownership of the water rights, as well as documents conveying the water rights to the Osprey Property Owners Association. Otherwise, we will process the transfer but the rights will remain in the name of the Osprey Land Co.

You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. IDWR must receive the information requested in this letter or the request for more time to seek the information by May 15, 2009. The application will be voided without a timely written reply.

Sincerely,

Vicky Music
Sr. Water Resource Agent
