7-1-09

To Idaho Department of Water Resources,

This letter is in opposition to the relocation of the diversion point, on the application # 75647 by Klain Christensen.

These are some of the things that should be required before permission is given.

(1) Permission from the current owners of the land, where the new diversion is to be placed, should have been ask for, and required.

(2) The people of The Garden Creek Water District, should get to vote on this diversion change, and as a share-holder, I know this action never happened.

(3) Why would a person pump water from the lowest point in the area, when he already has a diversion point from a Lateral on the highest ridge on the property, and closer to the place of irrigation?

Sincerely,
Bruce Wheatley
