

# MEMORANDUM

**Date:** July 01, 2009  
**To:** Transfer 75595  
**From:** mholliday  
**Re:** transfer approval

---

This transfer proposes to change the point of diversion for groundwater right 25-12712. The right is currently pumped out of a common well with 3 other domestic rights. The change would result in the right being diverted out of a new well located approximately 200 feet southeast of the current point of diversion. Right 25-13974 will also be diverted out of the new well upon approval of transfer 75594.

**Authority to File:**

Applicant is the current water right owner of record. Taxlot data indicates that the applicant is still the owner of the water right place of use.

**Water Right Validity:**

This water right was decreed in the SRBA in 1999. There is no evidence of forfeiture.

**Injury to Other Water Rights:**

No issues identified. Since the new well is located in such close proximity to the existing well, there will be no hydrologic impact.

**Enlargement of Use:**

There is no evidence of enlargement of use.

**Local Public Interest:**

No issues identified.

**Beneficial Use / Conservation of Water Resources:**

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
