WATER RESOURCES
WESTERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Knife River Phone (208)362-6152
Mailing address 5450 W. Gowen Rd., Boise, ID 83709
2. Source of water supply ground water which is a tributary of _____
3. Location of point of diversion is Township 2N Range 2E Sec. 22, in the _____ 1/4,
NW 1/4, NW 1/4, Govt. Lot _____, B.M., Ada County;
additional points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 0.33 for commercial purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.33 and/or (b) 92.0
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source 40 hp pump
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet;
total reservoir capacity _____ acre-feet
 - c. Proposed well diameter is 8 inches; proposed depth of well is 730 feet
 - d. Is ground water with a temperature of greater than 85°F being sought? No
 - e. If well is already drilled, when? May 2008; Drilling firm Coonse Well Drilling & Pump Co.;
Well was drilled for (well owner) Knife River; Drilling Permit No. 904595-851600; Tag No. D0052917
7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in kW. _____
 - b. Stockwatering; list number and kind of livestock. _____
 - c. Municipal; show name of municipality. _____
 - d. Domestic; show number of households. _____
 - e. Other; describe fully. Commercial use for a gravel pit

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
2N	2E	22					C	C	C	C									

C = Commercial use

Total number of acres to be irrigated _____

10. Describe any other water rights used for the same purposes as described above. UWID

11.a. Who owns the property at the point of diversion? Amyx Family Limited Partnership

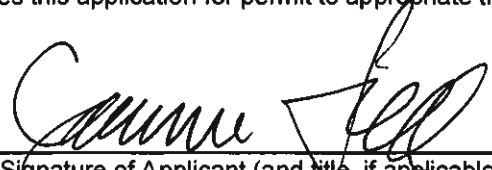

b. Who owns the land to be irrigated or place of use? Amyx Family Limited Partnership

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: letter attached

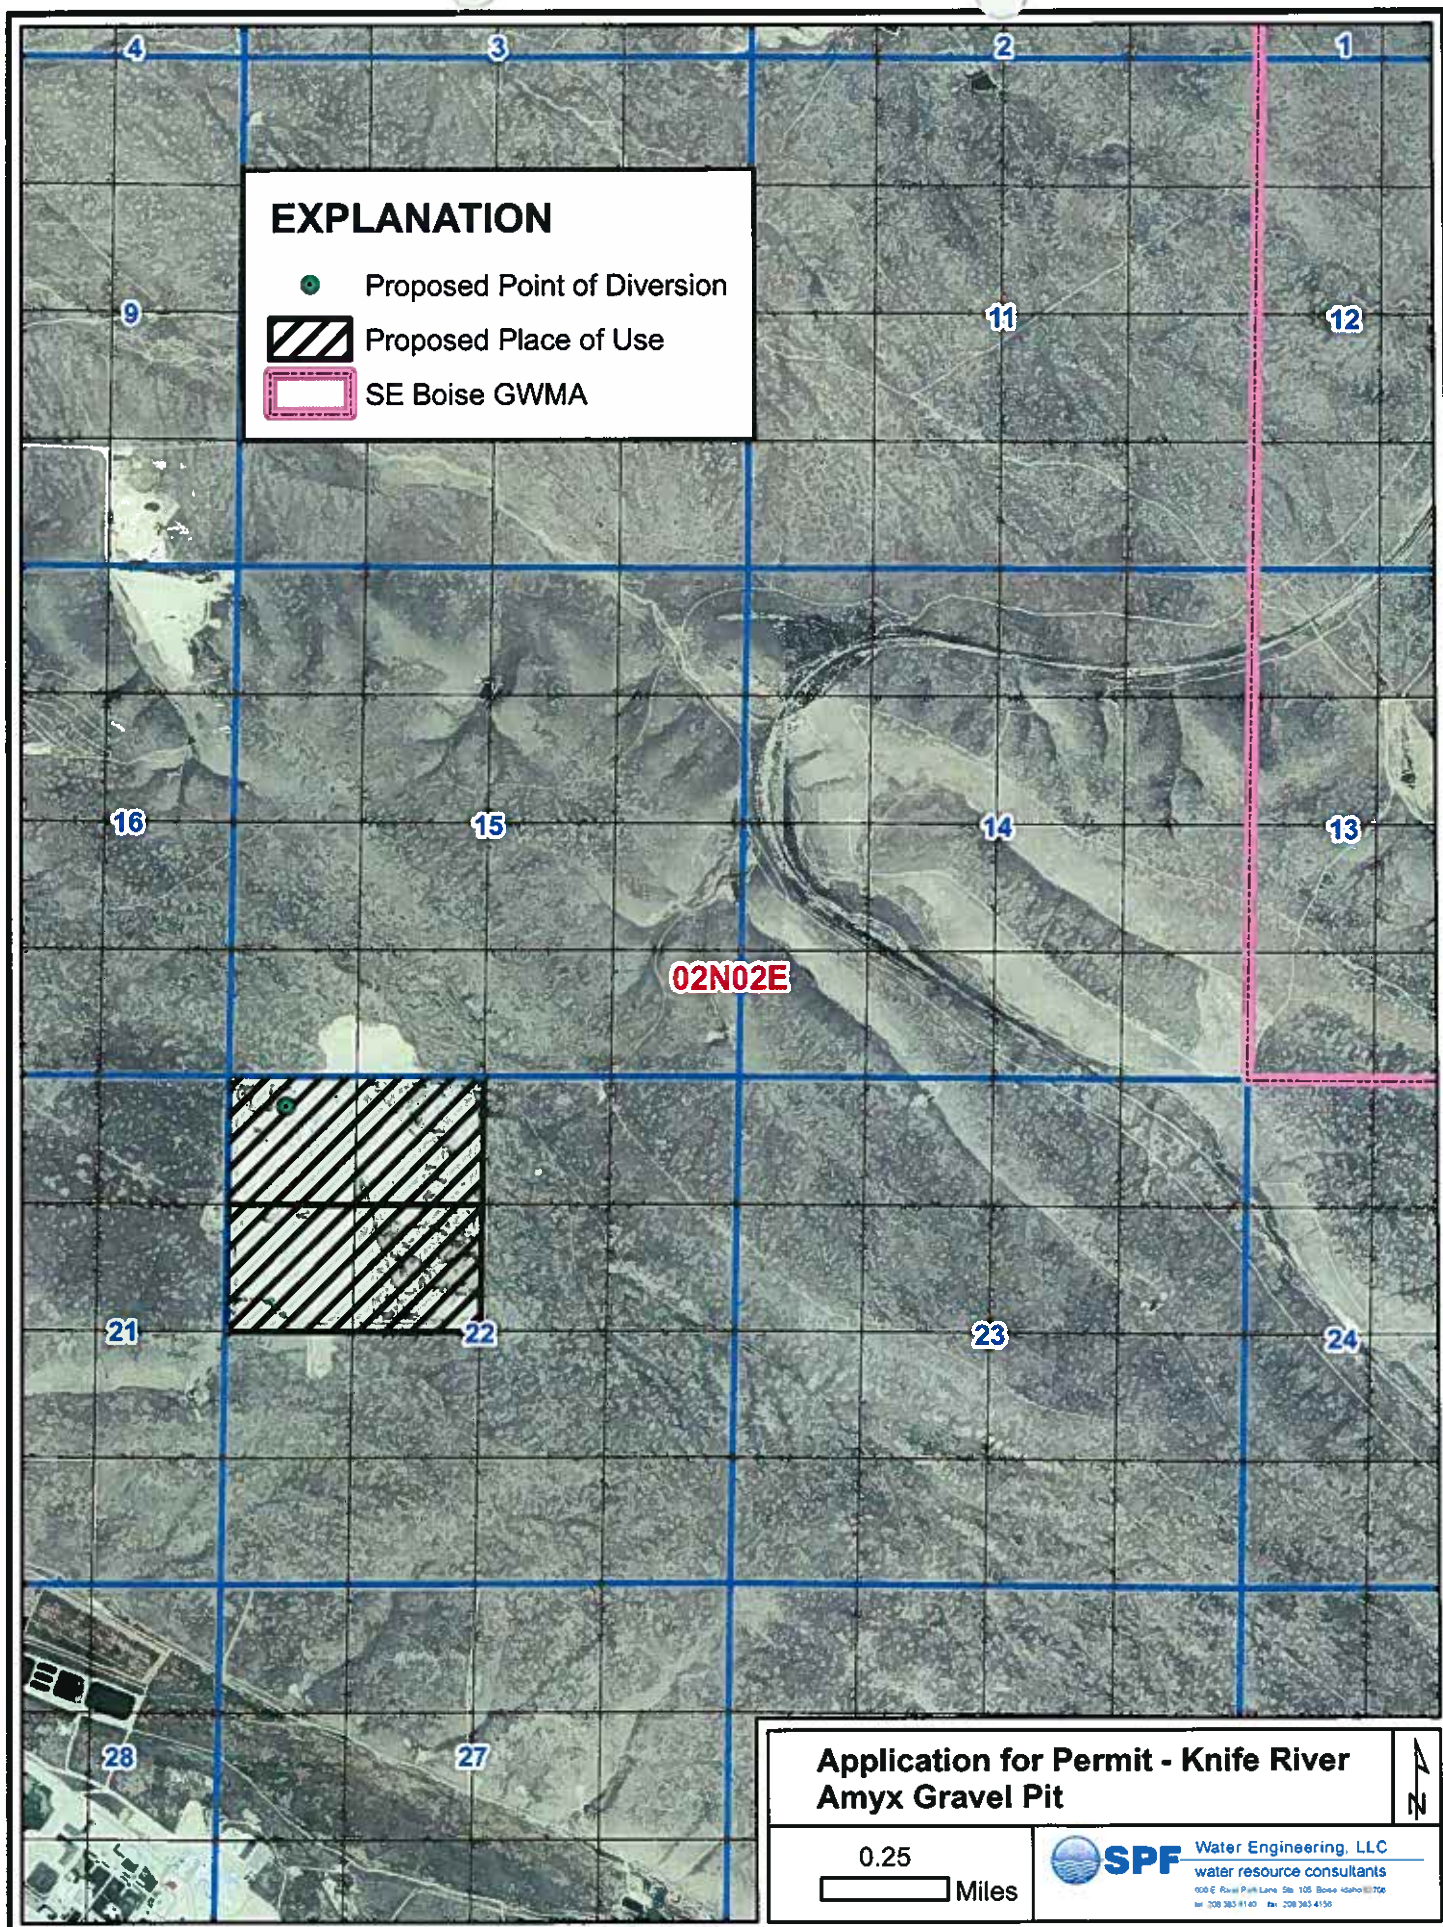

12. Remarks: United Water Idaho (UWI) is currently supplying water at the Amyx gravel pit. Water will be appropriated from 540' to 730'.

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Re: Application for Permit – Knife River

Dear Mr. Lester,

We are aware of an *Application for Permit* filed by Knife River to develop a water right from ground water on land owned by the Amyx Family Trust south of Boise and west of Pleasant Valley Rd. Knife River currently holds a long-term lease on that site and is operating a gravel pit.

The Amyx Family Trust has no objection to Knife River establishing a water right on this property.

Sincerely,

for the Amyx Family Trust
Donald Amyx

Re: Application for Permit 63-33077 – Knife River

Dear Kay,

This is a response to your letter dated May 18, 2009. We are providing additional information to support and clarify the above-captioned application.

1. Commercial use at the site consists of gravel washing. There are no office or shop facilities or any other water use at the gravel pit.
2. Knife River does not intend to develop a storage pond. Prior to drilling the well in 2008 and renting water from the Idaho Water Supply Bank to be used at the site, water was supplied by Suez Environment-United Water (formerly United Water Idaho). The permit application includes a volume of water consistent with the annual United Water supply (supporting documents will be provided, if necessary).

Knife River contacted United Water prior to filing the application. United Water indicated they would not object to an application for no more than the volume of water previously supplied by them. We believe that including the volume limit on the advertised application may prevent a protest by United Water.

3. We are enclosing a check for \$125.00 to upgrade the drilling permit fee.

Please contact me if there are additional questions.

Sincerely,

Re: Application for Permit 63-33077 – Knife River

Dear Roxanne:

On April 7, 2009, I e-mailed you and requested information concerning the above referenced application for permit. Since I have not received the information, I thought I would make a second request. We must have the information in order to proceed with the processing of this application.

1. What will the commercial use at the gravel pit consist of? Are they going to wash gravel or have facilities and offices?
2. Why is there a volume amount on the application? Are the applicants intending to develop a pond? Is water going to be stored? Is the 92 af on the application form the expected maximum diversion volume per year? If so, please provide the data showing how that amount was arrived at.
3. The applicants drilled the well, proposed to be used, under a domestic well drilling permit in 2008. In order for this well to be used for commercial uses the applicants will need to upgrade the drilling permit fee by submitting an additional \$125.00 to IDWR. Please ask them to include the drilling permit number (851600) on the check that they submit so we can connect the fee with the drilling permit.

Please submit the requested information for application processing to continue. You may request additional time to provide the information by making a written request to delay or interrupt processing. A response including the requested information, or a request for additional time, must be received within thirty (30) days. The application may be voided without a timely written reply. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

Kay Walker

Cc: Walker, Kay
Subject: Application for Permit 63-33077 - Knife River

Hi, Roxanne.

I am beginning to review the above application for permit and have a few questions in regard to this one.

1. What will the commercial use at the gravel pit consist of? Are they just going to wash gravel or have facilities/offices or what?
2. Why is there a volume amount on the application? Is there going to be a pond? Is water going to be stored? Is the 92 af on the application the expected maximum diversion volume per year? If so, please provide the data showing how that amount was arrived at.
3. The applicant's will need to upgrade their drilling permit fee for the well. They paid \$75.00 for a domestic drilling permit. They will need to submit an additional \$125.00 in order to upgrade the drilling permit to a commercial use.

Thanks for your help in the matter.

ACTION OF THE DEPARTMENT OF WATER RESOURCES D0052917

This Permit is

Approved

Date

5-27-08

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare, which may be required before construction of the well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum of 50 feet and 100 feet respectively from a septic tank.
3. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

7. If a bottom hole temperature of 85 or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

8. Idaho Code, § 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "DigLine" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "DigLine" Number for your area is 1-800-342-1585.

9. Please be advised that this drilling permit should be considered and treated as a preliminary permit. If you are in disagreement with this preliminary permit you have fourteen (14) days of the service date of this permit to petition the Department for reconsideration pursuant to Section 67-5243, Idaho Code.

10. The well tag for the drilling permit/start card shall be securely and permanently attached to the well casing through welding or by the use of four closed end domed stainless steel pop rivets. The tag attachment will be done at the time of completion of the well, and prior to removing the drill rig from the drill site.

SPECIFIC CONDITIONS:

Use From this well shall not exceed 10 gal/min and 2500 gal/day. This well may not be used in connection with a "Public Water System" unless approved by IDEQ. Note Condition No. 7 above, the bottom hole temperature shall be measured and reported prior to completion.

EXTENSION OF DRILLING PERMIT

Extension approved by _____ Approval Date _____

This extension expires: _____

Drilling Permit No. 904595-851160
Water Right No. _____ (if applicable)

**REQUEST FOR ISSUANCE OF DOMESTIC DRILLING PERMIT
WITH CASING SIZE EXCEEDING SIX (6) INCHES**

Knife River, Applicant, requests the issuance of Drilling Permit for domestic (exempt) purposes as defined in Idaho Code Section 42-111, which authorizes construction of a well with casing size exceeding six (6) inches in diameter. The Idaho Code states, in part:

"the phrase 'domestic purposes' or 'domestic use' means:

- A. *The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to one-half (1/2) acre of land, if the total use is not in excess of thirteen thousand (13,000) gallons per day, or*
- B. Any other uses, if the total use does not exceed a diversion rate of four onehundredths (0.04) cubic feet per second and a diversion volume of twenty-five hundred (2,500) gallons per day.*

For purposes of these sections, domestic purposes or domestic uses shall not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments, unless the use meets the diversion rate and volume limitations set forth in subsection B of this section"

The request is made to drill a 8 inch diameter well for the following reason(s):

- ☒ A larger diameter is required because of expected limited productivity of formations expected to be encountered, or difficulties in drilling that have been experienced.
- ☐ The pumping equipment available requires a larger well diameter and will be valved to prevent excess diversion.
- ☐ Other _____

Who owns the property at the point of diversion? Amyx Family Limited Partnership

Who owns the land to be irrigated or the place of use? Amyx Family Limited Partnership

If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing on behalf of the well owner Knife River has occupied the Amyx property for 8 years under a 20-year lease. Knife River is currently negotiating an extension of the lease and has permission from the Amyx Family Limited Partnership to drill a well on the property.

I acknowledge that use of this well for any other purpose than domestic use as defined under Idaho Code Section 42-111 requires approval by the Idaho Department of Water Resources and that failure to comply is a violation of Sections 42-351 and 43-352, Idaho Code.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is **APPROVED** Date _____

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

GENERAL CONDITIONS:

1. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one(1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare, which may be required before construction of the well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum of 50 feet and 100 feet respectively from a septic tank.
3. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho. If the well being drilled is associated with approved water right(s) use of the well must comply with conditions of said water right(s).
7. If a bottom hole temperature of 85 or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "DigLine" Number for your area is 1-800-342-1585.
9. Please be advised that this drilling permit should be considered and treated as a preliminary permit. If you are in disagreement with this preliminary permit you have fourteen (14) days of the service date of this permit to petition the Department for reconsideration pursuant to Section 67-5243, Idaho Code.
10. The well tag for the drilling permit/start card shall be securely and permanently attached to the well casing through welding or by the use of four closed end domed stainless steel pop rivets. The tag attachment will be done at the time of completion of the well, and prior to removing the drill rig from the drill site.

Subject: RE: Knife River

Sherry,

Doug Delong is controller for Knife River. It is our understanding from the current Rules that Knife River can apply for the drilling permit based on their long-standing lease with the Amyx Family Partnership. Do you need a copy of the contract?

Subject: Knife River

Roxanne,

I just noticed the Drilling Permit you turned in for Knife River is signed by a Doug Delong - is he the Controller of Knife River or the Amyx Family Limited Partnership that actually owns the property? The Drilling Permit & Waiver need to be in the actual property owner's name and signed by the actual property owner.

Thanks,

Sherry
