RE: Application 67-14991 Protest

Nancy Evans called today about the protest filed by Williams. She said the protestant is her brother. The protest concerns ownership of the property.

She said she has documents showing the applicants do own the property and wondered what to do next.

I advised her to wait for the protest acknowledgement letter and then to respond at that time. She could request an expedited prehearing conference if she wants to. I also told her we need to provide due process to the parties so cannot do anything contrary to that (cannot just dismiss the protest right away, for example).
