

Memo:

Subject: Review of T73711 for need of mitigation

Date: 12/2/08

From: Allen Mervitt

Used V3.1.xls to model move of 26.7 acres with 106.8 Af₂ into Lease PPU with 30 wells.

From well in Row 63 Col 59

To well closest in Row 66 Col 63

Using 35.6 zt/trimester found largest impact in Neeley to Neeley zt approx 0.25 zt/trimester

To well zt approx centroid of 30 well system in Row 70 Col 60. Using 35.6 zt/trimester found largest impact in Neeley to Minidoka zt approx. 0.33 zt/trimester.

Since impact less than 2.0 zt/trimester no mitigation required.
