PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 95-9221

Dear Permit Holder:

On May 20, 2009, the department received (4) Proof of Beneficial Use ("proof") forms all under the above referenced water right number. It is only necessary for the department to keep the original ("proof") form submitted for well no. 4 which reflected an incorrect rate of diversion, and the revised ("proof") form submitted on June 01, 2009, which reflects the correct rate of diversion of .20 cfs. Enclosed is a copy of the permit for your reference, along with the three unacceptable proof forms.

You reported that your total rate of diversion is .20 cfs, therefore your license examination fee is \$50.00. Department records indicate that an additional drilling permit fee in the amount of \$125.00 is due based on the water use developed under your water right permit. Since a total of \$300.00 has already been receipted, the department will apply \$175.00 towards these fees and will refund \$125.00 to you within 7-10 business days.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made meets the permitted beneficial use. If you have questions about the field examination, please contact the Northern Regional Office of the department in Coeur d'Alene at (208) 762-2800.

Sincerely,

A handwritten signature in black ink that reads 'Darla Block'. The signature is fluid and cursive, with the first name 'Darla' being more prominent than the last name 'Block'.
