Re: Application for Permit No. 63-33175 and Notice of Change in Water Right Ownership for Right No. 63-26751

Dear Mr. and Mrs. Walker:

This office received your Application for Permit seeking a new water right and Notice of Change in Water Right Ownership (ownership change) for an existing water right. The two forms are incomplete and/or need correction. The ownership change must be amended to include the water right numbers proposed for the change and proper ownership documentation (warranty deed, etc.) demonstrating you are the current owner(s) of the property to which the rights are appurtenant. Based on information you submitted originally, it appears the water rights for which you wish to change ownership are 63-11156 and 63-26751. I have enclosed a summary report of each right of for your reference. I have also enclosed a copy of the ownership change you submitted for you to amend, as indicated above, and return.

Upon review of your Application for Permit, there are a few areas of the application that need correction or completion. Enclosed is a copy of your original application with the areas requiring amendments highlights in yellow with my comments/suggested amendments in red. I have drafted an amended application for your signature that addresses the corrections based on information submitted and my conversations with Mrs. Walker on 4/20/09, 4/22/09, and 5/6/09. Please review the amended application, make any necessary changes (date and initial any such changes), sign and submit it to the Department for further processing.

A map showing the proposed point of diversion and place of use must be submitted with an application for permit. As a portion of the amended application, I have attached a map showing your property boundary per Canyon County tax lot data for your use. Please place a dot on the map indicating the location of your well proposed as the P/D for this new water right and label it "P/D". Also, please indicate the 1.6 acres inside your 7.6 acre property boundary you propose to irrigate and label this area "P/U".

Walker

Page 2 of 2

Please submit the signed amended application, with any necessary corrections, and the amended change in water right ownership form with applicable ownership documentation to allow for further processing. If amendments are necessary to the enclosed application, please note on the application the date you amended the application and initial or sign next to that date indicating you are the author of the amendments. Your response, or a request for more time to make your response, must be received within thirty (30) days from the date of this mailing. The application will be rejected without a timely written reply.

Per your request, I have enclosed the necessary ownership change forms should you sell your property during the establishment of the proposed water right 63-33175. The Assignment of Application for Permit form should be submitted by you to assign the application to the new owner before if the property is sold BEFORE the permit is approved. The Assignment of Permit form with associated fee should be submitted by you to assign the permit to the new owner if the property is sold AFTER the permit is approved. If a license is issued for this right before the property is sold, the Notice in Change in Water Right Ownership should be submitted with the applicable fee by the new owner. Please feel free to contact the Department when the property is sold and staff will let you know which form should be submitted based the water right status.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm

Re: Flow Test at 12349 Galloway Rd.

Pump was run for over an hour at 25 gallons per minute. Water flowed steady and clear, at 50 PSI, with a draw down of 15ft. Static water level is 21ft. Well depth 120ft. Pump level 60ft.

System is in good working order.
