RE: PERMIT NO. 67-14379 and 67-143~~6~~80

ATT: DEBORAH J. GIBSON

Regarding water rights of Leslie G. and Kathleen A. Davis, no. 67-14380 for 0.20 c.f.s.
and no. 67-14379 for 0.12 c.f.s.

There is so little amount of water being used it would be very hard to put a measuring device in place and be very accurate. The water has a lot of spring run off and it changes somewhat from spring to summer.

It is my opinion that a measuring devise would not be of any advantage to anyone.

Thank you for your time in this matter.

Merrill Joe Stippich
Water Master 67A Ben Ross
