Keith -

Subsequent to submitting our comments regarding water right application #87-10063 for Timothy and Patricia Green, we learned that the request was for an existing pond that was constructed in the 1980s. This application was made at the request of IDWR to better reflect the actual volume of the pond, which is 4 AF rather than 2AF in size. Based on this new information, we would like to withdraw the objections we expressed in our comment letter of April 29, 2009. We have no objection to issuing this water right.
