WATER RESOURCES
WESTERN REGION

To Whom It May Concern:

I Jessica Salas could not make the conference because of family emergency in California.

I returned home June 3 to find this letter in the mail.

We are protesting Jack Woford's application on the water rights because we want to know where the water he plans on tapping into comes from? The stream he plans on using dries up in the summer. From the indication on the map, it looks like he wants to tap into a water source from our property. There for we are protesting

Sincerely,

Jessica Salas
