

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 35-13918

1. Name of Applicant Groveland Water & Sewer District* Phone (208) 785-4902
Mailing address P.O. Box 833, Blackfoot, ID 83221 Email apples@onewest.net
c/o Keith C. Wilson Rocky Mountain Environmental Associates, Inc. Email kwilson@rockymountainenvironmental.com
482 Constitution Way, Ste 303, Idaho Falls ID 83402 (208) 524-2353 Fax 208) 524-1795
2. Source of water supply Ground water which is a tributary of _____
3. Location of point of diversion is Township 2 S Range 35 E Sec. 28, in the _____ ¼,
NW ¼, SW ¼, Govt. Lot _____, B.M., BINGHAM County;
additional points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 0.48 cfs for Municipal purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) 0.48 cfs and/or (b) _____
cubic feet per second acre feet per year
6. Proposed diverting works:
a. Describe type and size of devices used to divert water from the source 16 in. well with pump to distribution lines to 167 homes (Application is for in-house use for an additional 125 homes)
b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet;
total reservoir capacity _____ acre-feet
c. Proposed well diameter is 16 inches; proposed depth of well is 743 feet
d. Is ground water with a temperature of greater than 85°F being sought? NO
e. If well is already drilled, when? 01/30 - 06/10/1985; Drilling firm Jack Cushman Drilling;
Well was drilled for (well owner) Groveland Water & Sewer District; Drilling Permit No. _____
7. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
a. Hydropower; show total feet of head and proposed capacity in kW. _____
b. Stockwatering; list number and kind of livestock. _____
c. Municipal; show name of municipality. _____
d. Domestic; show number of households. 125 Domestic homes (See # 10 & # 12, and Attachment # 2)
e. Other; describe fully. _____

* See Attachment # 4 for list of District Officers.

9. Description of place of use: - **Place of Use within water & sewer boundary.**

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols. **Place of Use within water & sewer boundary.**

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	
2S	35E	28							D	D	D	D	D	D					
		29				D												D	
		32	D								D		D	D			D	D	
		33					D	D	D		D	D	D	D					
3S	35E	5					D	D											

Total number of acres to be irrigated: _____

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? License 35-8354 is for 42 houses. This application is for in-house use for an additional 125 homes for a total of 167 domestic homes.

See Attachments #2 & #3

11. a. Who owns the property at the point of diversion? Groveland Water & Sewer District
b. Who owns the land to be irrigated or place of use? Individual homeowners
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: Groveland Water & Sewer District under Title 42, Chapter 32 Idaho Code

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. License 35-8354 was issued for Domestic use for in-house use for 42 homes. This application is for in-house use only for an additional 125 domestic homes.

*Groveland Water & Sewer District officers – Attachment # 4

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.) – **(Attachment # 1)**

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Attachment #2

Background:

In 1983, an Imminent Threat Grant was awarded to Bingham County on behalf of the Groveland/Collins area due to contamination of individual home owner's wells. District Environmental Health Director, Jack Palmer identified the problem as "imminent and immediate threat to public health."⁽¹⁾

Contamination was so high that some residents imported their own water. In some cases water had oxygen demanding (COD) contents higher than waste entering the Blackfoot sewage facility. Tests for chemical contamination measured 460 times that which is considered maximum. Other types of contamination include fecal coliform and unknown "background" bacteria in quantities often measured too numerous to count.⁽¹⁾

In light of the contamination in the area the Groveland Water & Sewer District is applying for an additional 125 domestic homes to cover the 13 additional homes currently on the system and the estimate of the number of homes that will be added in the foreseeable future.

Mitigation:

This application is for in-house use only. The Groveland Water & Sewer District is in the process of adopting the policies and procedures as seen in the "Water Policy Sections 3.3-7 and 3.3-9" (see Attachment #3)

Section 3.3-7 of "Water Policies" deals with how the District will obtain additional water rights for in-house use when a subdivision is to be added, and Section 3.3-8 deals with how irrigation water rights will be incorporated into the district's water system.

The District currently is in the process of obtaining 5 shares of surface water in the Riverside Canal Company. Some patrons of Groveland Water and Sewer District individually own shares of water in the Riverside Canal. Lot sizes vary from about 2½ acres to ¼ acre with the majority of lots being ½ acre or less. Patrons, who have ditches and own water, irrigate using the surface water. Because of the cost of using the Groveland Water and Sewer District water supply, patrons generally irrigate mostly with their shares of canal water.

(1) Attachment # 5 - Quote Governors' News Release (08-19-1983), www.idwr.idaho.gov/apps/WaterRightBackfile 35-8354

Attachment #3

Groveland Water and Sewer District Changes to Policies and Procedures

3. Water Policies

- 3-1. The District will provide water to its patrons as specified by our license or permit.
- 3-2. The District shall collect and hold hook-up fees and an administrative fee. The fees will be set by the Board. Refer to Fee Schedule.
- 3-3. All new water hook-ups must be inspected by the State of Idaho Plumbing Inspector and have the appropriate inspection sticker affixed in the home.
- 3-4. Any new projects requiring main water lines or pumps will be required to supply documents of compliance and an "As-Built" Drawing to the District upon completion of the phase or project.
- 3-5. All new water hook-ups must be equipped with a meter box as specified by the District.
- 3-6. The District may require water to be metered. The District will provide the meter. The District has the right to enter private property to read the meter and to do needed maintenance. Patrons who do not already have a meter box may be required to install one.
- 3-7. If a patron has an existing well, the well must not be connected to the lines being fed by Groveland Water and Sewer District. This is to prevent possible contamination of the District's lines.
- 3-8. **Additional household water rights may be obtained when a developer applies to add a subdivision to the District. When negotiating a Development Agreement with a new developer, the process for obtaining water rights for household use will be as follows:**
 1. The District will apply for the water rights and the developer will reimburse the District for the cost.
or
 2. The developer will apply for the water rights and gift them to the District.
or
 3. The Developer will obtain water by other means and gift them to the District.
- 3-9. **Additional irrigation water rights may be obtained when a developer applies to add a subdivision to the District. When negotiating a Development Agreement with a new developer, the process for obtaining water rights for irrigation purposes will be as follows:**
 1. The developer may use existing surface water rights of the property being developed. The developer will plan and incorporate a system or means of water delivery to each home in the subdivision. He will also create a homeowner's association to operate and maintain the irrigation system.
or
 2. The developer may transfer suitable ground water rights to the District's well, which may then be used for irrigation purposes through the District's water lines. The District may meter this water.
or
 3. The Developer will obtain water by other means and gift it to the District.
- 3-10. When a developer applies to the District for household and/or irrigation water for the subdivision, the developer and the District will determine the amount of water needed for the development. Any excess water rights for that property will be gifted to the District. (Idaho State Statute 42-3212 & 67-6437)

JOHN V. EVANS
GOVERNOR

RECEIVED

SEP 6 1984

Department of Water Resources
Eastern District Office

OFFICE OF THE GOVERNOR

STATE CAPITOL
BOISE 83720

August 19, 1983

NEWS RELEASE

BISMARCK -- Governor John Evans announced today the award of a \$200,000.00 Imminent Threat Grant to Bingham County under the Idaho Community Development Block Grant (ICDBG) Program.

The County applied for the emergency funds on behalf of the residents of the Groveland/Collins area just West of Blackfoot.

The funds will provide a safe water distribution system by drilling a deep well into the Snake River aquifer. The funds are expected to service approximately 150 persons residing in the impact area.

The project is designed to correct conditions in the areas of highest contamination. Contamination has been so high in some areas that some residents have had to import their own water. In some cases, water drawn from some of the wells in the area has shown chemical oxygen demanding (COD) contents higher than the waste entering the Blackfoot sewage facility. Tests for chemical contamination have measured 460 times that which is considered maximum. Other types of contamination include fecal coliform and unknown "background" bacteria in quantities often measure to numerous to count (TNTC).

District Environmental Health Director, Jack Palmer has identified the problem as an "imminent and immediate threat to

RECEIVED

August 19, 1983

Page 2

public health" noting that "The number of contaminated wells has increased as well as the lengths of periods of contamination."

Community residents, local officials and various health monitoring agencies have expressed strong support for the project. Officials are also seeking other sources of funding for future water needs.

Imminent Threat funds represent ten (10%) percent of the State's annual allocation of Community Development Block Grants. Applicants must meet several strict requirements to even be considered eligible for these funds.

With the selection of the Bingham County project, most of the imminent threat funds are committed. Next year's ICDBG allocation is not expected until next spring even though applications for regular grants will be accepted October 1-15 of this year. Applications for imminent threat funds are accepted throughout the year until the funds are no longer available.

The Program is administered by the Idaho Division of Economic and Community Affairs.

RE: Application for Permit No 35-13917 and 35-13918

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Morning News on June 18 and 25, 2009. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved.

Please feel free to contact this office if you have any questions.

Sincerely,

Sharia Cox
Administrative Assistant

RE: Application for Permit No 35-13917 and 35-13918

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered during regional review. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Sincerely,

Sharla Cox
Administrative Assistant
