RE: Water Right Permit No. 85-15635

Dear Mr. Bearden:

The Department has received and processed the assignment of permit for the above listed permit. While trying to process the Statement of Completion for proof of beneficial use ("proof") you submitted along with the assignment, I noticed that the extent of use does not match this permit. I did locate another permit (85-15537) which appears to match your described use. Therefore, I am returning the original form to you and ask that you revise the form as appropriate and return it to me in the enclosed self addressed, stamped envelope.

To provide you with information regarding the permitted water uses and rate of diversion for each permit I have enclosed computer generated reports for each of the permits. Please note that proof of beneficial use for 85-15635 for 15 acres of irrigation is due on June 1, 2009. If your revised statement is submitted by June 12, 2009, you will not be considered late and there will be no change in the priority date. If the development of the 15 acre site has not been completed, you will need to submit an extension of time. The \$50 fee submitted with your proof of beneficial use can be applied toward the extension of time.

Permit no. 85-15537 is still in the name of Richard Baines. An assignment of permit will be required if you wish to change the permit into your name. Proof of beneficial use can only be submitted by the permit holder. For your convenience I have enclosed your original statement of completion, blank copies of the statement of completion form, and an assignment of permit. As noted in our April 9, 2009 letter, the fee for an assignment is \$25 and the fee for proof of beneficial use is \$50.

I will hold this matter for **15-days** from the date of this letter to wait for your response. If there is no response, permit no 85-15635 will lapse.

Please contact me at (208) 287-4952, if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Emalee Rushing".
