RE: Application for City of Kendrick—Transfer of Water Rights

Dear Mr. Franklin:

On behalf of the City of Kendrick, we have prepared an application for transfer of water right. The application was prepared for two new wells that the City is preparing to drill. The transfer will allow the City to utilize three existing and two proposed wells to withdraw under any of three decreed water rights.

The City requires the new wells to provide system redundancy in accordance with Idaho Department of Environmental Quality rules for public drinking water systems. It is our understanding that the City cannot drill the wells until the transfer process is complete. Due to the needs of Kendrick, we request that the drilling process be allowed to move forward prior to finalization of this transfer.

Please feel free to contact our office with any questions or concerns.

Sincerely,

J-U-B ENGINEERS, Inc.

Amy K. Uptmor, EIT  
Project Representative
