

MEMORANDUM

TO: Transfer No. 73647 File
FROM: Steve Lester 
DATE: June 3, 2009
RE: Evaluation of Sufficiency of Information Submitted

The transfer proposes a split with a P/D and P/U change.

Contact person for the applicant is consultant Darwin Vander Stelt.

The application was deficient in several ways plus another new owner apparently should be involved (assign application to new person).

An amended application with a "transfer reject" cover letter explaining the situation was sent to the consultant in February 2008. The 60 day response period expired with no reply.

The application should be rejected pursuant to Transfer Memo #24. Rejection is not based on failure to pay the domestic well drilling permit upgrade fee – that is an incidental detail not affecting transfer processing at this time.
