From: kfranklin
Re: License Amendment

This license is being amended for the following reasons:

Wildlife and Aesthetic diversion and annual volume was included on the original license is error since the pond is instream. Wildlife and Aesthetic use is covered by the Wildlife and Aesthetic Storage components. Also the total annual volume for the license should have been 9.4 AF instead of 24.4 AF and the condition relating to stockwater is being removed since the diversion and annual volume amounts are already figured into the license for 10 head of stock and condition 004 is also deleted. A new condition relating to the size of the pond is added.
