Hi Jeff,

Since my wife retires in about 3.5 years lets go for the 5 years just to be safe.

Thank You, Barry

Barry-

I thought we had all of the things covered for your application, but it looks like we need to know how many years you would like (1-5) for development of the proposed use. The entry on the application was left blank. An e-mail response would be sufficient. Please let me know if you have any questions.

Hi Jeff,
The attached map is correct and the property is located in Twin Falls County.

Subject: Application for Permit

Barry,

We received your application for permit for the domestic water right. There are a couple of minor details that I need you to verify and forward to the agent that has been assigned to handle the application. I have attached a copy of the map that has been included with the application. The well and place of use is located in **Twin Falls County** and the legal description of the place of use is the same as the point of diversion (**POU 09S 14E 4 NWNW**).

If you could take a look at the attached map and forward this email to: jeff.cooper@idwr.idaho.gov Stating that the information listed above and on the map is correct. He can then proceed with the application. If you have any questions let me know.

Thanks,
Nathan
