RE: Application for Permit (Domestic) – Geothermal Waiver

COPY

Dear Mr. Tiemann:

You recently submitted an application for permit to divert low-temperature geothermal groundwater for domestic use at your property situated in 09S, 14E, Sec. 4, NWNW. In order to develop uses for low-temperature geothermal groundwater, other than for its heat value (as outlined under Section 42-233(1), IDAHO CODE), a waiver must be granted. Since the area of the application is currently under a moratorium, a new appropriation for heating use cannot be obtained. Because of this, I would request you please fill out the attached request form. This will allow the Department to evaluate the circumstances for which the permit is applied for. If you have any questions regarding the form or your application please don't hesitate to contact myself or Nathan Erickson. Thank you.

Sincerely,

Jeffrey S. Cooper
Sr. Water Resource Agent – IDWR, Southern Region
