RE: Transfer of Ownership License #63-32975

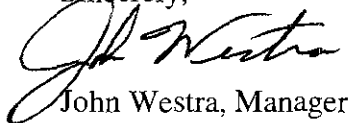

Dear Mr. Bills:

This is in response to our conversation earlier today regarding the transfer of ownership of the above described water right. Our office will proceed with the processing of your application for change of ownership. However, I would recommend the right be placed in the water bank for lease/rental while you are in the transition process. A water right in the bank will not be subject to forfeiture for nonuse while the right is in the water bank, ref. Idaho Code (IC) 42-223. A water bank application is enclosed

Please understand that if you desire to transfer the water right to another location or change any element of it, a transfer application must be filed with our agency. The transfer process requires the applicant to provide documentation/information the right has been beneficially used within the last 5 years to avoid forfeiture, IC 42-222. You may desire to discuss this with your consultant.

Should you have questions, please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager
