PROOF DUE NOTICE

**IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.**

RE: PERMIT NO. 65-13894

Dear Permit Holder:

According to the Department's records a Preliminary Order dated November 23, 1999 approved the application for permit no. 65-13894 and a condition of approval stated "Proof of instream beneficial use of the minimum flow appropriated shall be submitted to the Department on or before November 1, 2004. This notice is to request that proof or a request for extension of time be submitted on or before **June 1, 2009**.

Enclosed are two forms: a Proof of Beneficial Use ("proof") form and a Request for Extension of Time ("extension") form. An acceptable proof form, or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof, if the water right has been applied to its beneficial use.

If you have not fully completed your project, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. Or, if you have been prevented from proceeding by a federal agency or by litigation that brings title to the water in question, more than one extension of time can be granted with documentation providing evidence of the delay filed with the extension request. An extension request must be signed by the appropriate authorized permit holder(s).

Either an acceptable proof **or** an acceptable extension request must be received by this department on or before the proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah Gibson, Admin. Assistant  
Water Management Division
