DEPARTMENT OF
WATER RESOURCES

Dear Reid,

Here is what I could find concerning you CRP contracts for the land you describe as
The South ½ of T4S Range 31E Section 16.

The land is broken down into two contracts. I've stapled the two contracts separately and
have indicated on each the current and expired contracts.

I currently can not verify any contracts previous to 1998 due to the fact that the records
are not kept in office and currently reside in our records center in Seattle Washington. It
does however look like there were CRP contracts previous to 1998 for this land, but I just
don't have the supporting documents to send you.

If you have maintained any records of your crop reports previous to this date, the CRP
acreage would be listed in those FSA-578s.

Let us know if we can be of further assistance.

Sincerely,

Bennett DeMoss
Program Technician
