Re: Joint Application for Permit

Dear Mr. Pumnea:

The Idaho Dept. of Water Resources has reviewed your Joint Application for Permit to alter the floodplain adjacent to Bodie Canyon Creek.

The Department has determined that you will not need an approved stream alteration permit because the proposed project is not in a continuously flowing stream. Pursuant to Rule 10 of the Stream Channel Alteration Rules, no permit is required for the work you are proposing. This determination does not imply approval from any other State or Federal Agency and specifically the Army Corps of Engineers.

I have also enclosed your \$20.00 check #5393.

You will be required to submit proof of beneficial use before June 1, 2009 for the water right permit that was issued by the Department in 1999.

Thank you for the opportunity to review this project.

Sincerely,

Gregory J. Taylor
Stream Channel Protection Specialist
