PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 65-23168

Dear Permit Holder:

The department acknowledges receipt of the statement of completion for submitting proof of beneficial use ("proof") form submitted for the above-referenced permit. The next step in the process of developing a water right is for the department to conduct the field examination to determine and confirm the use of the water, and that it meets the permitted beneficial use.

Condition No. 6 of your water right permit requires that you install a measuring device and lockable controlling works that will provide the watermaster suitable control of the diversion. Your proof submittal indicates that the lockable device was not installed. Please be aware that your failure to have the device installed and operable at the time the department conducts the field examination may jeopardize the validity of the permit. You may request, in writing, a waiver of the condition by the department describing the reasons for the request.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at:

www.idwr.idaho.gov

If you have any questions about the field examination, please contact the **Western Regional Office** of the department in Boise at (208) 334-2190.

Sincerely,

Emalee Rushing
Office Services Supervisor
