

MEMORANDUM

Date: April 29, 2009
To: Water Right File 25-7583 Melvin Fielding
From: Michele Edl
Re: permit status

I contacted Rob Harris this morning to give him an update on the status of this permit. The permit has been reinstated to Mr. Melvin Fielding. To fulfill our requirements for notifying the permit holder, I needed to confirm an address for the estate. Rob Harris stated that James Fielding would be the best representative for the Melvin Fielding Estate and gave me his address.

I also reminded Mr. Harris that now this permit was in effect, it is real property. I suggested that he work on getting an assignment from the Melvin Fielding estate to his clients while it is still real property. I commended him on the quality and quantity of documentation that he provided for the reinstatement and told him I had been assigned to complete the water right license to this permit.
