**RE: Approval of the Engineer's Report Submitted in Compliance with Condition
Number Six of Permit 23-11387**

Mr. Rob Harris:

This letter is to inform you that the Idaho Department of Water Resources (Department) has reviewed the revised Engineer's Report (report) submitted by Keller Associates dated April 27, 2009. The report summarizes the "*analysis and recommendation for Palisades Creek proposed sand point well and expected replenishment outcomes in connection with the [Department] water usage condition [six]*".

The Department finds that the revised report meets the requirements of permit condition number six. Furthermore, the Department authorizes the construction of the improvements associated with the permit, provided they are constructed in substantial conformance with the report and all attachments.

If you have any questions regarding this matter please contact me by phone at (208) 287-4800 or by electronic mail at mathew.weaver@idwr.idaho.gov.

Respectfully,

A handwritten signature in black ink, appearing to read 'Mathew Weaver', with a long horizontal flourish extending to the right.

Mathew Weaver, PE
Staff Engineer
