I will do that, could you send me the new PPU shape file when you have that.

Thanks,
Amy

The fax number is 736-3037. I can remove the parcels from the map and perhaps you guys could either submit new pages 2 and 3 with those parcels omitted or make some changes on the originals and initial and date them and either fax, email or drop them off? The loading station in the NWNW of Section 5 is listed as 16 acres and the Idaho Power substation in the NWNW of Section 28 is listed as 2.3 acres. Those QQ's will need to be reduced accordingly and also the total. Thanks, Jeanie

Yes we are fine with removing the other two parcels. I don't have the exact parcels on a shape file like you guys do it might be easier for you to remove them from the proposed PPU and for me. What is your fax #.

Thanks,

Amy

Amy,
I guess you could fax it over for our file if it's not too much trouble! Does that mean you will want to amend the permissible place of use and the map to get rid of the other two parcels though? Thanks Jeanie

Jean,

I just heard back from Twin Falls county on that parcel and they confirmed that the parcel is owned by Visser Holsteins, ownership changed in 2008. Do you need me to provide the parcel master inquire sheet to you that they faxed to me?

Thanks,
Amy

Amy,
 This is what was in our taxlot layer, but the information is from 5/2/2008 so I don't know...perhaps if you called the TFCounty office again and gave them the parcel number RP09S13E326440 and see who owns it? It seems to be 285' X 365'. Jeanie

Jean,

I just got back from the Twin Falls County office we reviewed the areas you had outlined in your email and letter and confirmed that the Idaho Power Sub owns the NWNWNW of Section 28, T. 9S., R.13 E., a 400' wide by 250' piece. We also confirmed that the n1/2 of the NWNW of Section 5, T. 10S, R.13E. is owned by Amalgamated Sugar and should be removed from our proposed place of use. However the review of SWSWSW of Section 32, T.9S. R. 13E. shows that Visser owns the entire SWSW QQ. per Twin Falls county clerk. Would it be possible to get a copy of your parcel data?

Thanks
