9a. Who owns the property at the point of diversion? If other than applicant, describe the arrangement enabling the applicant to make this filing.

Point of Diversion #1: BIG BEND DITCH CO - Historic right of way for Big Bend Ditch

9b. Who owns the land to be irrigated or place of use? If other than applicant, describe the arrangement enabling the applicant to make this filing.

APPLICANT

10. Remarks:

We own 25 inches of irrigation water in the Big Bend Ditch, but have only been using 21 inches since the irrigation diversion was reconstructed last summer. The present pipeline will not carry the full 25 inches. We could enlarge the pipeline to carry the full amount, but are willing to divert the smaller amount as mitigation for the use of water under this permit during the winter months. By having a stock/duck-hunting pond on our property, cattle can be fenced off of the Big Bend Ditch to reduce damage and maintenance requirements. Downstream users will benefit from the extra water in the Ditch for irrigation. We do not irrigate during the diversion/storage period requested on this application. The pond will be lined with clay to eliminate seepage loss, and evaporation losses will be minimal during this period. The requested flow will maintain water quality in the pond. Water will be re-diverted from the Big Bend Ditch on our property, and will run back into the Ditch about 300 feet downstream.

11. Map of proposed point of diversion and place of use attached? []

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
