Re: Application for Transfer No. 73819

Dear Russell and Tammy:

The Idaho Department of Water Resources (IDWR) is currently reviewing the above referenced application for transfer to change a water right. On October 1, 2008, an amended application was submitted indicating the proposed point of diversion for the water right is your existing domestic well, well tag number D0000512. On October 3, 2008, I sent a letter requesting the required drilling permit fee upgrade for use of your domestic well for irrigation. I have enclosed a copy of that letter for your reference. On October 17, 2008, I received a letter from Russell Lloyd outlining several questions he had concerning this transfer application and the proposed point of diversion. I spoke with Mr. Lloyd on the phone November 21, 2008 to address these questions. I told Mr. Lloyd if he wishes to use the existing domestic well as the point of diversion for these rights the requested drilling permit fee upgrade must be submitted. I informed Mr. Lloyd that if you wish to use a new well as the point of diversion, a new drilling permit is required and the well must be drilled within one year of the transfer approval, should it be approved. Mr. Lloyd indicated he would make a decision and respond accordingly. To date the Department has received no further response, either through submittal of the required drilling permit fee upgrade (\$125.00) or an amended application changing the point of diversion to a proposed well.

Please submit the requested drilling permit fee upgrade or an amended application for processing of the above referenced transfer application to continue. Your written response including the fee or amended application, or a request for more time to respond, must be received within the next thirty (30) days.

Without a timely reply, IDWR will issue a preliminary order to reject the application. The application fee will not be refunded for a rejected application. A rejected application may be re-filed when adequate information can be provided.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm
Water Resource Agent, Sr.

Enclosure: Copy of October 3, 2008 letter requesting drilling permit fee upgrade
