Dear Mr. Dayton -

Due to the lack of water in the stream (which at this time is dry) it is of no value to - got to the expense and work of something permit.

I have two holes dug with backhoe at this time for the stock to water and at times one of them is dry.

(If the permit lapse and become of no force no effect. "irrigation")

all I can expect is a little stock water.

Thanking you.
