RE: Change in Ownership of Water Right Nos. 75-7564, 75-10104 and 75-10105

Dear Interested Party:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership.

Water Right No. 75-7564 is still in the permit stage. A permit to appropriate water is considered personal property and can only be conveyed through an assignment from the permit holder of record (John E. and/or Linda K. Stricklan) or through a legal conveyance of the *personal* property. I also note that the place of use only partially located on your property. Please find enclosed a copy of the permit, a copy of the map which depicted the place of use and an assignment of permit form for your use.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use. If the permit was only partially conveyed to you, and you submit an assignment of permit form which indicates the portion conveyed to you, it is very likely that the department will not be able to complete the ownership change process until the beneficial use field exam is completed and/or the license is issued.

To complete the change in ownership for water right nos. 75-10104 and 75-10105, please sign the notice of change in water right ownership and submit the fee of \$50 (\$25 per water right). If you have any questions, please feel free to contact me at 208-287-4952.

Sincerely,

Emalee Rushing
Office Services Supervisor
