RE: Application for Permit

Dear Applicant(s):

The Department of Water Resources has received your water right application. After preliminary review of the application, we still have some questions regarding the beneficial use. The required information is described below.

- Municipal was the purposed use on the application, but there was nothing about irrigating the lawns.
- Will lawns be irrigated?
- If so, Atomic City will need to join Bonneville/Jefferson Groundwater District for the purpose of mitigation.

I have tried to contact Atomic City regarding this matter and have not received any response. In order to complete the process of the application, the above information needs to be provided. The deadline to reply to this letter is June 13, 2008.

Sincerely,

Denise Kidman
Water Resource Agent
