WATER RESOURCES

RE: City of American Falls Water Right # 29-8171 and # 29-8236

Dear Ms. Skaggs:

On September 26, 2007, Pete Cortez of the City of American Falls and Bryan Phinney, PE and Nick Charles of Keller Associates, Inc. met with Ernie Carlsen in Idaho Falls regarding the status of water rights owned by the City of American Falls. Mr. Carlsen proved to be very helpful in answering our questions and suggested that we contact you in regards to moving forward to issue licenses for water rights #29-8171 and #29-8236.

Water right #29-8171 is currently in permit form but according to Mr. Carlsen all of the necessary documentation has been submitted in order for this right to be changed to a license. Water right #29-8236 is currently in application form but needs to be updated and processed to a permit. We are currently completing beneficial use documentation for this water right so that it can be changed to a license. The purpose of this letter is to request that these two water rights be updated to reflect the paperwork that has been filed relating to each.

Please contact Bryan Phinney or myself at Keller Associates, Inc. at (208) 238-2146 if any additional information is required. Thank you for pushing these water rights forward for the use of Residents of American Falls.

Sincerely,

KELLER ASSOCIATES, INC.

A handwritten signature in black ink, appearing to read 'Nick Charles', written over the company name.

Nick Charles
