

MEMORANDUM

Date: April 20, 2009
To: Transfer 66114
From: nvandyke
Re: transfer memo

Transfer 66107 was originally filed in May of 2000 and has been held by the Department. This transfer is part of a series of three: 66107, 66113, and 66114 in the name of Veenstra. This series of three is also related to another series of three transfers that were filed back in 1997 and recently approved by the Department: 66542, 66525, and 66526 in the name of Bettencourt. The Bettencourt transfers were protested and a subsequent agreement was signed in January of 2000. The agreement determined the amount of water belonging to the applicant (Bettencourt) and protestant (Veenstra) with regards to water right nos. 36-2352, 36-7368, and 36-7260. In short the three Bettencourt transfers then moved around his portion of the three rights and the three Veenstra transfers moved around his portion of the three rights. See Allen Merritts May 17 2000 memo on the Bettencourt group and September 20 2001 memo on the Veenstra group for clear summary on how the water was divided up and proposed to be transferred. My research into all six finds and agrees with his conclusions.

Specifically Transfer 66114 shifts around the remaining leftover irrigation from the previous transfers. 0.37cfs and 18.1 remaining from the original right, 36-2352.
