Re: Water Right Transfer Application 74755 (Water Rt. No 63-32335)

Dear Mr. and Mrs. Congrove:

Your application has been assigned to me for reviewing and processing. A page was omitted and a copy of that page is enclosed here. An answer to Item No. A(9) is required before processing can continue. Please answer, initial and date, and return the page to me.

Additionally, your application proposes ground water use from a well. According to the records of Idaho Department of Water Resources (IDWR), your well was drilled in 1996 under a \$75 domestic well drilling permit. A \$75 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well.

The well drilling fee for a well to be used for irrigation is \$200 instead of \$75. IDWR must collect the unpaid balance of \$125 for a well drilled under those circumstances.

Please remit \$125 to upgrade your well drilling permit. I will continue to process your application in the interim, but the transfer will not be approved until payment is received by IDWR.

Please submit the omitted page by March 19, 2009. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. Your response or a request for more time to seek the information must be received by March 19, 2009. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Vicky Music
Sr. Water Resource Agent
