Re: Permit No. 96-9357

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm that the use being made meets the permitted beneficial use.

During my review of the proof you filed, I determined that you paid \$50.00 for the license examination fee. This right was permitted with a diversion rate of 0.04 cfs from a ground water source. A filing fee is waived for water rights with a diversion rate of 0.04 cfs or less from a ground water source. With this letter I am requesting that the State of Idaho issue you a refund check in the amount of \$50.00. This check will be mailed to you within 7-10 business days.

Well Construction Rules of the Department require an additional drilling permit fee in some cases where an increased use of water is authorized for a well. Department records indicate that an additional drilling permit fee in the amount of \$125.00 is due based on the water use developed under your water right permit. Failure to pay this fee may be cause for cancellation of your water right permit. Please submit this fee to the Department along with a note of reference identifying the drilling permit number. For your information, I have enclosed a copy of the drilling permit for your well. If you have upgraded this well, please provide me a copy of the Department's receipt.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 762-2800. If you have any questions regarding the refund or the processing of this proof, please contact me at (208) 287-4942.

Sincerely,

A handwritten signature in cursive script that reads "Deborah J. Gibson".

9. The Well Owner affirms to have read this Start Card/Permit, validates its accuracy and accepts the conditions.

Owner's Signature:

Joe Oswald

Date: 7/24/07

CONDITIONS FOR USE OF START CARD:

1. This permit authorizes the construction or modification of one domestic well for a single-family residence. No additional residences, businesses, or dwellings may be connected to this well without a valid water right. Limited to irrigation of 1/2 acre lawn/garden and 13,000 gpd.
2. This form must be complete, including the prepaid tag number and signature of the driller. The owner should sign the start card after reviewing these conditions. Mailing must take place no less than 72 hours prior to construction (Dept. address below), hand delivered or faxed to the Dept. prior to commencing construction. The start construction date shall be no more than 10 days after, the Department receives the permit. An incomplete form will not be considered a valid permit to drill.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare. All wells must be drilled a minimum distance of 100' from a drain field. Domestic wells must be drilled a minimum of 50' from a septic tank.
4. Only Well Drillers licensed in Idaho may use a Start Card for construction of a well. The driller shall maintain a copy of the Start Card and the well I.D. tag at the drilling site during construction.
5. This drilling permit does not authorize trespass on the land of another party.
6. This drilling permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85 F. or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.
9. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Digline" Number for your area is 1-800-342-1585.
10. The stainless steel I. D. tag must be welded to the well casing upon completing the well and must remain permanently attached above ground level for the life of the well. Other tags may be added following a repair or modification of the well. The well driller is responsible for permanently attaching the I.D. tag to the casing upon completing the well. The well tag shall be attached by welding at least 3 sides or using Four (4) stainless steel, closed-end pop rivets.
11. A start card is not valid for drilling in Areas of Drilling Concern, Critical Groundwater Areas, Groundwater Management Areas or Areas Identified by the Department as Contaminated.
12. The possession of a well tag does not authorize construction of a well.
13. Any well being replaced by a new well, shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.

Effective Feb. 1, 2005
