RE: License No. 63-9668 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

MAR 11 2003

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Volume

Water rights for municipal purposes are not normally restricted to an annual volume. In this case, however, the municipal use is not for distribution to the municipal customers through the common mainline. Therefore, a volume limit is being placed on the municipal use.

E. NARRATIVE/REMARKS/COMMENTS

A 408' deep, 12" well, equipped with a 40 hp submersible pump for irrigation and a 2 hp submersible pump for municipal use provides water to the City of Kuna's sewer treatment plant.

The irrigation pump bowls are set at 324' and the municipal pump is set at 312'.

Municipal water from the well provides a lab building, a chlorine building and also a small amount of landscaping surrounding the buildings.

The irrigation pump is used only when the sewage ponds are too low to pump for land application during the irrigation season. Four wheel line sprinklers were found at the time of the exam. No other rights are used. The SRBA claim has been filed by the City.

Contact person for the sewage treatment plant is Leola "Butch" Vega @ 880-4396.

Re: City of Kuna: Land Application of Wastewater

Dear Mr. Burgess:

We recently discussed water right issues related to a new land application site for the City of Kuna. The best recommendation I can offer involves changing all the municipal water rights held by the City except Permit No. 63-09668. That permit is an irrigation water right with a minor municipal component. A water right mostly described as irrigation use is probably not suited for inclusion in a land application scenario due to expansion of use considerations normally associated with irrigation.

The City holds four water rights described solely by municipal use. Changing the four rights to include a new land application site would include the following steps:

1. File an Application for Transfer to change License Nos. 63-03266, 63-08215 and 63-11970. The transfer fee for the sum of the licenses (9.02 cfs) is \$610.
2. File an Application for Amendment to change Permit No. 63-12394. The amendment fee is \$50.
3. The transfer and amendment steps could add the proposed land application site to the municipal place of use. The nature of use in the water rights would not change – it would remain as municipal use for the City service area plus for a defined site (identified by section ¼ ¼'s) outside of the normal service area of the City.

The City might want to consult legal counsel regarding alternatives to the above suggestion. In any event, some type of water right protection is needed for the new land application site. The protection is not evident within limits of existing water rights held by the City.

I have enclosed forms and related information for your consideration of the transfer and amendment steps. Please let me know if you need more information in this regard.

Sincerely,

Steve Lester
Water Rights Supervisor
