Harriet,

Happy holidays! I know you must be busy. I'm just wondering if we can finish the Georgetown hydro license soon. IDWR could just issue the license, but I'd rather know if the parties have concerns before the license is issued than have to deal with petitions of reconsideration after the license is issued. Let me know how you think we should proceed.

Harriet and Cindy,

Here's another proposed license for Georgetown. For condition no. 6, I borrowed some language and concepts from II.A.1 of the signed agreement.

I'll be in the office for the rest of today, and then back on Jan. 2.
