Glenns Ferry, ID 83623

Mr. and Mrs. McCallum,

Per our conversation earlier this morning, I am sending you a transfer application to correct the point of diversion on water right 37-7081. The water right has one well identified as the point of diversion for irrigation. Recently a well was deepened under tag D0050585; it appears that this well has been constructed to replace the original well that was constructed in the 1970's. The point of diversion on the water right is identified in the ten acre tract; the new well has moved the point of diversion a short distance to a different ten acre tract (see attached map).

I have drafted the transfer application and need you to review the application and fill in the areas with arrows. Signatures are required; due to recent changes in the transfer filling procedure a notary is not required. I have also included a copy of the filing fee schedule. If you have any questions please call me at 736-3033.

Thank You,

Nathan Erickson
Sr. Water Resource Agent
IDWR, Southern Region
