RE: Ownership of WR 78-7352

Dear Mr. Riley

The Department of Water Resources received your notice of change in water right ownership for the above listed water right on October 4, 2004. On March 8, 2007, the Department updated the record to reflect that you are the current owner of this water right.

After further review of the documents submitted, it appears that the ownership was changed in error as the property described on the deed does not match the place of use for this water right. I have enclosed a copy of the pictures taken at the time of the field inspection which reflect the place of use (P/U) for this water right as well as a map which depicts the approximate location of the property as described on the deed submitted.

I have restored the previous owner, C M Vogelsong, to current owner and left your name as "present owner". This indicates that you may have an interest in the water right. If you also own the property where the water right is located, please submit a copy of deed and we will update the ownership of this water right.

If the Department does not receive a response from you within 30 days, I will remove your name from the record, return the notice of change in water right ownership and request that a refund of the \$25 fee is mailed to you.

Please feel free to call me at 208-287-4952 if you have any questions.

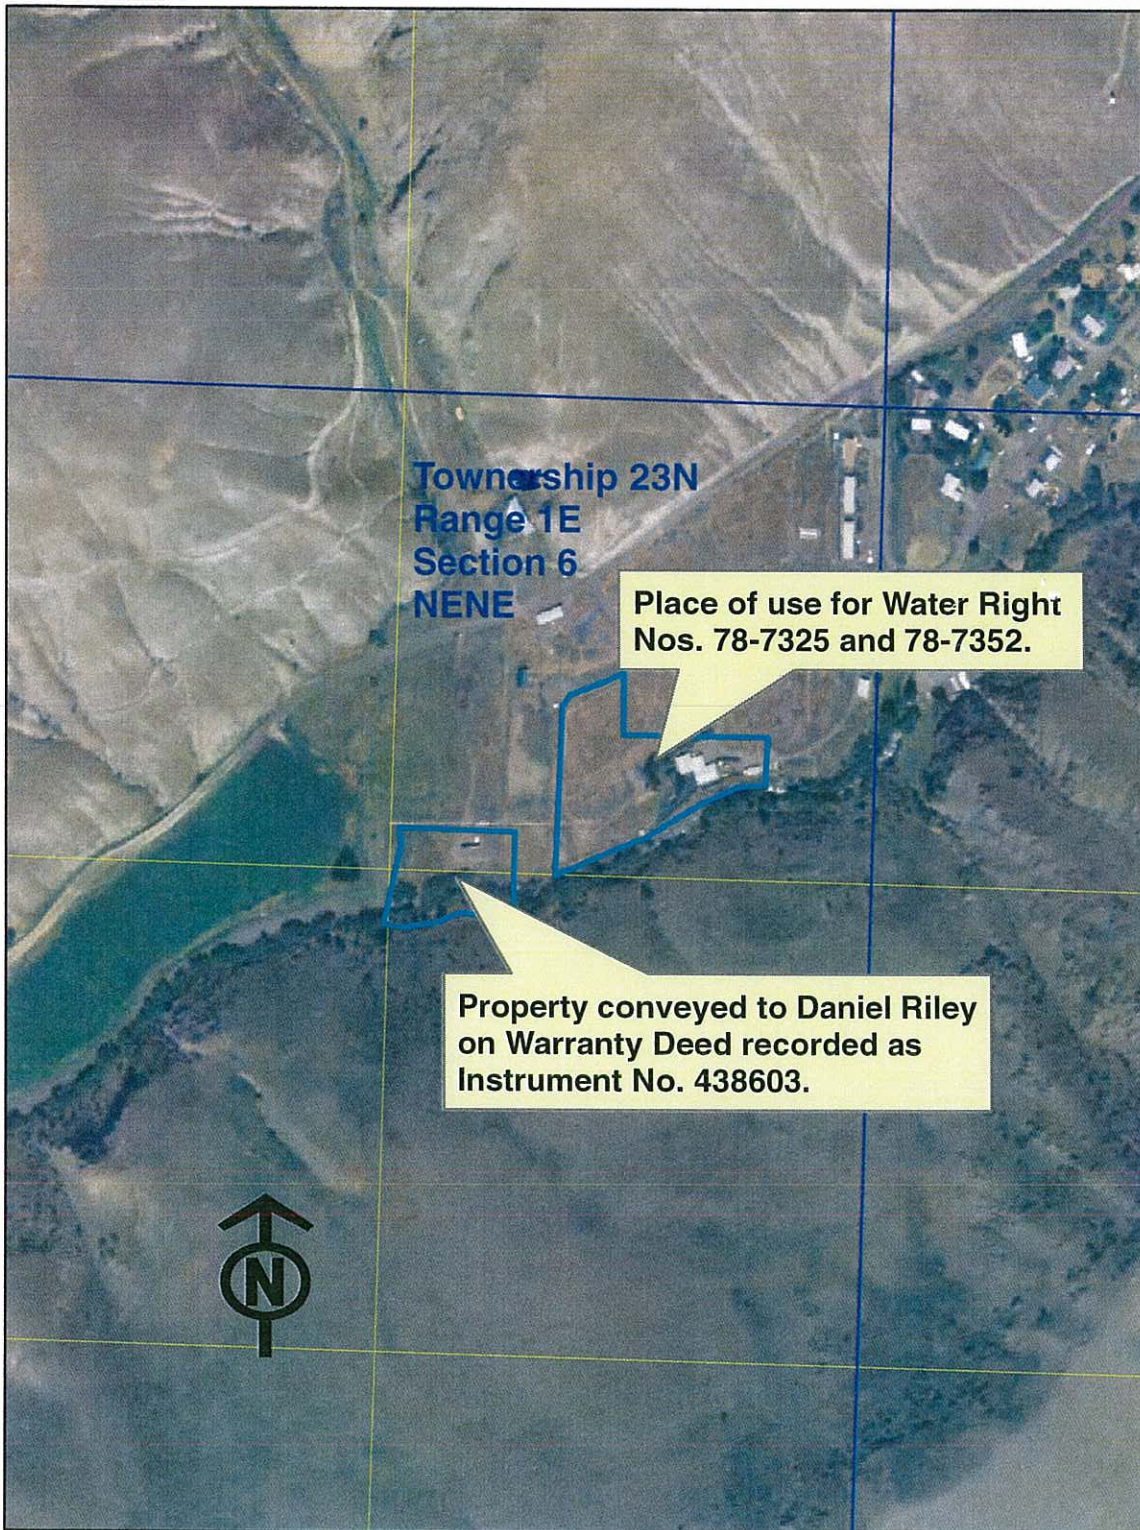

Sincerely,

A handwritten signature in cursive script that reads "Emalee Rushing".
