Re: Request for Extension of Time to Provide Additional Time in Which to Submit
Proof of Beneficial Use for Permit No. 22-13624.

Dear Debbie:

Enclosed please find a Request for Extension of Time to provide additional time in which to submit proof of beneficial use for Permit No. 22-13624, which is held by West Rim, LLC. This water right permit was originally approved on April 13, 2007, and one of the conditions of that permit was to provide proof of beneficial use by April 1, 2008. At the time, it was the opinion of the developers that the project could be completed within a relatively short time period. In April 2008, the applicant submitted a request for extension of time for one additional year. At the time, there were a number of lots that needed to be stubbed in order to meet the Department's standard for licensing of permits for municipal water use by a non-municipality. The request was granted, and proof due became due on April 1, 2009.

Now that that date is approaching, I have been informed by West Rim, LLC that there are approximately 53 lots that have not been stubbed in at the present time. It is anticipated that this work will be completed this summer, but due to the recent down turn in the housing market, it is not a certainty that the lines will be installed.

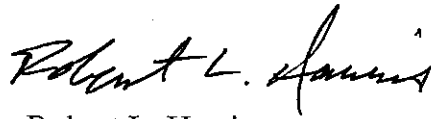

We visited by phone on March 20, 2009, and you articulated to me the Department's current policy on requesting extensions for time. As you communicated to me, it is the Department's policy to allow as many extensions as necessary up to the original five year development period. If additional time is sought past the initial five year period, the Department would then only grant one extension for up to five years. In relation to Permit No. 22-13624, we are still within the original five-year development period, as it was issued in April 2007. Therefore, we are requesting an extension to April 1, 2012. This is the entirety of the five year development period that should have been requested in the original

Established in 1896

Application for Permit. We very much appreciate the Department's clarification and cooperation on this issue, and would be happy to answer any questions you may have. We have also enclosed the filing fee of \$50.00.

Please confirm you have received this document, as it is important to West Rim that it is received by April 1, 2009. Again, we appreciate your assistance.

Best Regards,

A handwritten signature in black ink, appearing to read "Robert L. Harris". The signature is fluid and cursive, with the first name "Robert" being more prominent.
