Subject: RE: Watermaster Comment Request - WD 120

Hello Aaron,

I have no objection to Reid Stewart renting this water and using it to irrigate the identified place of use. Based on your analysis using the ESPA transfer model mitigation for moving this water is not required.

Thanks
Ernie Carlsen

Subject: Watermaster Comment Request - WD 120

Ernie,

I would like to request your review and comment on a proposed Water Supply Bank rental for Reid Stewart in WD 120. Attached is my review memo and the draft rental agreement that describes the proposal. Please review and let me know if you have any comments, suggestions, or concerns. I would like to mail the agreement by Monday, March 23, if possible. Please call or email for further discussion of the rental and my review. Thanks.
