

MEMORANDUM

Date: March 20, 2009
To: Water Right File 15-7223
From: cpadilla
Re: Ownership

Licensing

A licensing amendment form was signed by the previous permit holder. Since an assignment of permit was not received at the time of licensing, the licensing amendment signature will be sufficient in the licensing of this right.

Ownership

An ownership change was received 1/16/2007 by Peoa that included a deed conveying ownership of the land that this water right is appurtenant to, to both Triple R and Peoa. The deed shows a 3.33% interest to Peoa and the remaining 96.67% to Triple R. The deed does not specify that this is an undivided interest nor does it illustrate how the interests in the land were to be divided.

At this time the license will be issued with Peoa and Triple R as current owners.
