DEPT. OF WATER RESOURCES
SOUTHERN REGION

Subject: WLR, LC & MVL, LP Water Right Transfers

Dear Allen:

Please find attached the completed applications prepared to create a permissible place of use for two adjacent properties recently purchased from Steve, Maria and Roy Young.

The portions described in the transfers match the split agreement included in ownership changes submitted to IDWR in July of 2006, however due to the arrangement of the original decrees; it appears that these transfers are necessary to correctly split the place of use and also, these transfers will allow more flexible use of the water on the land to avoid similar issues in the future.

Since there is essentially no change in the point of diversion for any of the water rights, an ESPA transfer spreadsheet analysis was not performed.

I have included two checks to cover the fees associated with the transfers in the amount of \$370 (CK# 7646) for the MVL, LP transfer of 3.58 combined cfs and \$730 (CK# 7647) for the WLR, LC transfer of 12.56 combined cfs. Fees were previously submitted for the ownership change to split the rights, however since these transfers seek the same change it is hoped that a refund of those fees will be appropriate. Please call if you have any questions or need any additional information.

Sincerely,

Jason C. Helms, P.E.
