Angie,

The adjustments to the transfer application for Rockridge Dairy as explained in your email appears to be correct. Please make the corrections as needed and inform me on any other matters concerning the process of this application. Thank you.

Subject: Rockridge Dairy Transfer No. 75226 P/U to be Retired

Greg,

As we discussed during our phone conversation earlier this afternoon, it appears the place of use (P/U) description of the 62.9 acres to be retired (Part 2 B No. 3) was incorrectly described based on the P/U for continued irrigation described elsewhere on the application (Part 1 B No. 5, Part 2 C No. 3 for both rights, and the map). Currently, rights 51-13003 and 51-13004 authorize irrigation of 40.0 acres in the SE NW and 34.0 acres in the NW SE of Section 13 T10S R12E. According to the application, Rockridge Dairy proposes to continue irrigation of 19.0 acres in the SE NW and 22.1 acres in the NW SE of Section 13. This implies the applicant proposes to retire 21.0 acres in the SE NW and 11.9 acres in the NW SE of Section 13. However, the application states 18.4 acres in the SE NW and 14.5 acres in the NW SE are to be retired. Based on our conversation and all other sections of the application describing the irrigation P/U, I will assume the P/U describing the acres to be retired was completed incorrectly on the application and should state 21.0 acres in the SE NW and 11.9 acres in the NW SE of Section 13. Please reply to this email to confirm this assumption is correct in order to document the file as such to allow for continued processing. I appreciate your attention to this matter. Please contact me if you have any questions.

Thanks,
Angie
