

Golden Valley Water Proposal

Propose to pipe approximately 2500 minor inches of water from the Snake River to Golden Valley.

Allocation of the water would go as follows.

Producer	Volume in inches
Ardama	200
W Anderson	200
D Beck	200
Cranney	300
Ron Baker	100
Cranney Gen	5100
Big Sky	200
Pickett	100
Wybenga	200
Beuker	300
Robinson	200
S Hepworth	100
Farmland	200
Total	2500

RECEIVED

FEB 25 2009

DEPT. OF WATER RESOURCES
SOUTHERN REGION

Irrigate from April 15 to Oct 15

Managed Recharge

180 days at 2500 in. = 18,100 acre ft

Winter recharge

150 days at 1000 in. = 6,000 acre ft.

Total Recharge 24,000 acre ft. annually

Prorate the cost by those that participate and 20 % contribution by Southwest Irrigation

Private Finance Farm Credit-DL Evans- Rabo Bank

Approach Idaho Power for Oct 15 to April 15 off season power at reduced rate and an energy reduction cost share.

Water Source

Apply to the Water Resource Board for off season recharge water and early and late managed recharge, 10,000 acre ft. We will seek support from the director to help West Cassia Irrigation LLC to acquire some water annually for late season and off season recharge water.

Burley Irrigation district will provide pond for pump site plus lease SWI water and we will private lease the rest of our requirements. .

This project would be on the Eastern part of Golden Valley and Part II would be on the West out of the Milner area either direct pipeline or a cooperative wheeling agreement with Milner.

Power Savings estimate at 15 % savings

Rules for the group need to be established and agreed upon.
