RECEIVED

DEPARTMENT OF
WATER RESOURCES

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a FILING FEE of \$50.00 to be included with this form when filed with IDWR.

Permit No. 65-22938 Date Proof is Due: April 1, 2009
Name(s) of Permit Holder: Walter Buechler
Address: 1192 E. Braemere Rd. City Boise State ID Zip 83702
Telephone No. 208-345-0933 Email: buecdoug@msn.com

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Dredging of the pond was completed by the end of October 2007. The
installation of a new outflow weir and refilling of the pond with water was
done by November 2007. After spring runoff in 2008, the pond was full and
the weir functioning properly.

Costing \$ 19,900.-

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

So far no measuring device has been installed. On previous occasions we had
used a pail to estimate the water flow. We did not realize that a more
permanent and sophisticated installation was required for a diversion rate of
0.5 CFS. We are happy to comply with the Department's requirements. We will
install the device after spring runoff.

Permit holder(s) request an extension to October 30, 2009.
