Describe the reason for the proposed changes

Land in Sec. 26 & 27 has been sold with only late-priority reservoir rights. The decreed private rights are being consolidated onto our remaining land. No new land will be farmed due to this change. No land has ever been owned by Peterson Farms, so the transfer also corrects the ownership records for these rights. Early-priority reservoir rights will also be moved to the same remaining land directly through the Little Wood Canal Co. east canal; the point of diversion will not change.

The land that has been sold will be subdivided for homes, and any irrigation will come from city water or private domestic wells. This corrected application excludes the 1894 right (37-702), which was recommended to a separate parcel that has not been sold, and also excludes land owned by our son and his wife that will not be irrigated with the private decreed rights. The proposed place of use is the irrigated land that we own east of the Little Wood River Road, and also the land covered by the pivot west of the Road.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change

5. Total Amounts Transferred

	Rate	Acre Limit	Total Acres	Volume
37-16	2.20 cfs		175.0	
37-17A	0.98 cfs		175.0	
37-19	0.40 cfs		175.0	
37-304	0.80 cfs	34.0	175.0	
TOTAL	4.38 cfs		175.0
