RE: Water Rights Application Comments

Dear Mr. and Ms. Bullock:

The Idaho Department of Environmental Quality ("Department") has reviewed our existing water quality information near your proposed project site identified in Application 72-16772.

We understand this application is for the use of the heat value of the water granted by right number 72-1669. Because this current application does not appropriate more water than previously granted, the Department does not have any objection to the granting of this right.

We do not have any other substantive comments at this time. Further, we believe this letter allows the Idaho Department of Water Resources to proceed with the processing of your application.

Please do not hesitate to contact me at 208.528.2650 for additional information we may provide.

Thank you for the opportunity to review your application.

Sincerely,

A handwritten signature in dark ink, appearing to read "Troy Saffle".

Troy Saffle
Regional Water Quality Manager
Idaho Falls Regional Office
